LEGISLATURE ASKS INQUIRY INTO STOCKYARD OPERATIONS IN ALBERTA

Thousands Turned Away When Orators Join Issue At Pavilion In Calgary

Debate Carried on Before Audience of Over Four Thou-aand—Mayor Acts as Chairman and During Latter Part of Meeting Had Considerable Trouble in Keeping Order

CALGARY, Feb. 27.—More than 4,000 persons jammed into Victoria pavilion tonight to hear the debate by Rev. Hagh Dobson of Reglina and Dr. Michael Clark of Olds upon prohibition. More than two thousand persons were turned away before the speakers started. While the meeting was moderately orderly, there were many interruptions during the debate. Note of these interruptions necessitated the calling for order.

WHERE REGRETS BELONG.

WHERE REGRETS ESLONG.

The Manitobe Legislature turned down a resolution expressing regret that the Bracken Government had net reduced taxation. The members are not to be charged with duplicity on that account. They probably had no gretzes in the matter. Members of a legislature do not often act as though they regreted that taxes are high. That function is left to the taxpayers.

MISSING SOMETHING

MISSING BOMETHING.

This may not really be spring, but it is a very pleasant way of putting in the time until spring service. The coldest point on Tuesday as 18 degrees above zero, while the mercury during the afternoon climbed up to 52, and at three a.m. on Tuesday morning it was 38 above. For a week the range in temperature has been little wider than this "spread," while the sun that makes Alberta finnous has been doing duty about eleven hours per day. Alberta's winter colony at Long Beach please note.

TAXES OR TAXPATERS?

The legal department of the Provincial Government only succeeded in getting in \$1,600 last year out of \$153,000 arears of taxes. That may have been due to laxity, or to merry, or there may have been good judgment in it. Last year was a not dear distinguent taxpayers into court was more likely to cause them to cease to be taxpayers than to get the money out of them and leave their names still on the assessment roll. When back taxes can be collected only by killing in chances of getting future taxes it is better to go casy in the matter of collection.

THE OTHER SIDE OF 17

An Edmonton man who has been touring Europe says he travelled 190 miles in Germany for fifty cents, and get breakfast on the train at a cost of six coppers. From the tourist's standpoint those conditions seem to be about ideal, but land to the condition seem to be about ideal, but land in the company at the condition of th

PREPARED FOR THE WORST.

The Saskatchewan Legislature voted unanimously for the resolution authorizing the Government to co-operate with the Federal Government ment to co-operate with the Federal Governments to and the other purice provincial Governments to set up a compulsory wheat board. Premier Dun-ning said plaintly that he had no faith in the com-pulsory scheme for steining. The control of the op-tion said that he could see no great advantage in even a voluntary pool under normal conditions. The Saskatchewan taxpoyers are thug given the satisfaction of knowing that while the Legislature is raising their credit to an uncertain amount in a raising their credit to an uncertain amount in that the speculation will turn out wrong.

ANOTHER WAR LIKE BILL.

The Provincial Government last summer speat a half million dollars poisoning grasshoppers. Some of the money will come back to the Provincial treasury from the municipal districts, but the net loss to the province will not be lessened thereby. Whoever pays, the public are out the same number of dollars, or the same number of subskiel of wheever pays, the public are out the same number of the province of the same number of the same state of the same state of the same state of the same the collected and outnet, on the damage they were prevented to the same state of the same

The Information was a serviced that the manufacturers of Alberta are protesting against the recent decision of the Minimum Wage Board which has increased the basic rate on their principal cost of production over 55 per cent. The decision, which was gazetted on January 17th, becomes effective on April 1st, and raises the minimum wage from 80.00 to 814.00 a week; the week being 45 hours. This is an increase from \$1.00 to \$2.30 to \$2.33.13 per day. It is in every was desirable that all those who work should receive at least \$2.33.13 and any provided their doing so does not prevent others, needing money as much as they, from getting as much of \$2.33.13 as they can earn in a day. That is one side of the question.

Another side is that there must be capital or there can't be labor—or more correctly, wages for labor. If capital does not produce a return it cause to be capital and becomes a loss. The \$9.00 minimum has been in force in Alberta since 1917. Investments have been made in plant, stock, buildings and machinery on that cost basis. There is a grave possibility that such a large in crease in labor cost will so increase the cost of production as to prevent the natural expansion of the several forms of manufacturing enterprise already established in the city, and indeed may so handicap them that they must either contract their would not be to the advantage of the city, nor of those who desire such employment as these enterprises now afford.

It is easy to say: "Because we have (political) "power we will make the manufacturer cannot be made to pay if he eant yet money for the goods he produces. And he can't get the money unless he can sell at a competitive price. If he has made to make the sell of the server of
